

PORTFOLIO 2026

Muhammad Nadhif Fajriananda

Data Analyst

About Me

A Data Analyst with a Business Management background, specializing in translating complex data into actionable business strategies.

Equipped with strong technical skills in Python, SQL, and Power BI, alongside hands-on experience in processing unstructured data using Natural Language Processing (NLP).

I combine business acumen with quantitative analysis to solve real-world problems, as demonstrated through my work in digital product evaluation and large-scale ecosystem research.

Foundation & Arsenal

Education

Master of Management

Telkom University | 2025 – Present

Bachelor of Management Business

Telkom University | Aug 2020 – Aug 2024

Tech Stack

- ▶ **Languages:** Python, SQL
- ▶ **Libraries:** Pandas, NumPy, Scikit-Learn
- ▶ **Visualization:** Power BI, Tableau, Matplotlib
- ▶ **Tools:** Google Colab, MS Excel

Competencies

- ▶ Machine Learning & NLP
- ▶ Big Data Processing
- ▶ Business & Strategy Analysis
- ▶ Digital Product Evaluation
- ▶ Statistical Computing

Applied AI in Tourism Analytics

PUBLISHED RESEARCH (MDPI, 2025)

"Large-Scale Cross-Cultural Tourism Analytics: Integrating Transformer-Based Text Mining and Network Analysis"

Led the data processing and modeling phase for a large-scale analysis of tourist behavior across Southeast Asia, bridging cultural insights with destination strategies.

METHODOLOGY HIGHLIGHTS

- ▶ **LLM Implementation:** Utilized ChatGPT 3.5 Turbo for precise, automated data labeling at scale.
- ▶ **ML Modeling:** Fine-tuned BERT deep learning model for sentiment analysis and multiclass text classification.

COUNTRIES ANALYZED

Tourist Origin	Country of Visit	NFE	RCE	NBE	CNE	CTE	Number of Reviews
Africa	Indonesia	0.68	0.71	0.66	0.77	0.85	1465
	Thailand	0.52	0.73	0.66	0.76	0.83	4403
	Vietnam	0.78	0.71	0.82	0.82	0.78	2241
Central Asia	Indonesia		0.98	0.69		0.99	21
	Thailand		0.97	0.52	0.98	0.38	64
	Vietnam			0.98	0.93	0.98	39
Eastern Asia	Indonesia	0.28	0.63	0.58	0.67	0.58	1765
	Thailand	0.30	0.54	0.66	0.84	0.73	3643
	Vietnam	0.80	0.80	0.81	0.77	0.77	3834
Europe	Indonesia	0.48	0.68	0.61	0.61	0.65	19,255
	Thailand	0.34	0.63	0.68	0.73	0.79	43,954
	Vietnam	0.78	0.71	0.78	0.81	0.81	41,865

Technical Lead: Analytics Module

CURRICULUM DEVELOPMENT

Advanced Analytics & Machine Learning Pipeline

Authored a comprehensive technical module for the Social Computing & Big Data Laboratory, translating complex ML concepts into practical Python frameworks for real-world business cases.

```
# Show the Accuracy, Precision, Recall, F1, etc.
acc_mlp = metrics.accuracy_score(y_test, y_predmlp)
prec_mlp = metrics.precision_score(y_test, y_predmlp)
rec_mlp = metrics.recall_score(y_test, y_predmlp)
f1_mlp = metrics.f1_score(y_test, y_predmlp)
kappa_mlp = metrics.cohen_kappa_score(y_test, y_predmlp)

print("Accuracy:", acc_mlp)
print("Precision:", prec_mlp)
print("Recall:", rec_mlp)
print("F1 Score:", f1_mlp)
print("Cohens Kappa Score:", kappa_mlp)
```

End-to-End Pipeline Design

Formulated workflows from data wrangling to model deployment for ANN algorithms predicting Customer Churn and Stock Indexes.

Market Basket Analysis

Developed algorithms using Apriori to extract retail product recommendation insights based on support, confidence, and lift.

Leadership & Impact

Mentored 67+ students, utilizing this module as the standard for practical learning and final project evaluation.

Professional Certifications

Validating technical expertise and analytical methodologies through industry-recognized certifications.

Data Analysis with Python

IBM / Coursera

Databases and SQL for Data Science

IBM / Coursera

Let's Connect

I am highly motivated to help your company uncover new opportunities through effective, business-aligned data analytics.
